

2009 ICD-9 Diagnostic Codes for Ophthalmology

Abrasion / minor injury, cornea	918.1	Astigmatism, irregular	367.22	Burn:	
conjunctiva	918.2	Atrophy, iris (generalized)	364.59	eyelids/adnexa, chemical	940.0
eyelid, adnexa	918.0	iris, essential (EIA)	364.51	eyelids/adnexa, other	940.1
eye, other sites	918.9	optic nerve, hereditary	377.16	unspecified	940.9
face	910.0	optic nerve, partial	377.15	1 st degree thermal burns	
face, with infection	910.1	optic nerve, primary	377.11	eye, eyelids	941.12
Abscess, cornea	370.55	optic nerve, unspecified	377.10	forehead, cheek	941.17
eyelid	373.13	Axenfeld's anomaly	743.44	face, other	941.10
orbit (cellulitis or abscess)	376.01	Band keratopathy	371.43	2 nd degree thermal burns	
vitreous	360.04	Behcet's syndrome	136.1	eye, eyelids	942.12
Accommodation, insufficiency	367.4	Bell's palsy (facial n. CN 7)	351.0	forehead, cheek	942.17
paralysis	367.51	from birth injury	767.5	face, other	942.10
spasm	367.53	Bleb infection, inflamm. postop	379.60	Canaliculitis, lacrimal, acute	375.31
Acoustic neuroma	225.1	stage 1	379.61	chronic	375.41
Actinic keratosis	702.0	stage 2	379.62	Carotid artery stenosis	433.10
Agnosia, visual	368.16	stage 3, w/ endophthalmitis	379.63	with stroke	433.11
AIDS, HIV infection	042	Blepharitis, NOS	373.3	Carcinoma in situ, eye	234.0
asymptomatic HIV infection	V08	allergic	373.32	Cataract, adult	
Albinism	270.2	Rosacea (condition)	695.3	aftercataract (PC clouding)	366.53
Allergic conjunctivitis	372.14	squamous	373.02	cortical	366.15
blepharitis	373.32	ulcerative	373.01	combined forms	366.19
Allergy, from drug or eyedrop	995.27	Blepharochalasis	374.34	dense, mature, total	366.17
Alzheimer's disease	290.10	Blepharoconjunctivitis, angular	372.21	drug-induced	366.45
Amaurosis fugax	362.34	contact	372.22	hypermature, Morgagnian	366.18
Amblyopia, deprivation	368.02	unspecified	372.20	incipient	366.12
refractive	368.03	Blepharophimosis	374.46	nuclear sclerotic (NS)	366.16
strabismic	368.01	Blepharospasm	333.81	posterior subcapsular (PSC)	366.14
unspecified	368.00	Blindness, both eyes, total	369.01	pseudoexfoliation (PXF)	366.11
Aneurysm:		both eyes, profound	369.08	radiation-induced	366.46
carotid, extracranial	442.81	both eyes, severe	369.22	secondary	
intracranial	437.3	both eyes, moderate	379.25	traumatic, localized	366.21
cavernous sinus	437.3	legal blindness (<=20/200)	369.4	traumatic, total	366.22
cerebral	437.3	one eye, total	369.61	Cataract, congenital, nuclear	743.33
conjunctival	372.74	one eye, profound	369.67	congenital, cortical/zonular	743.32
retinal, congenital	743.58	one eye, severe	369.71	congenital, capsular	743.31
retinal microaneurysm	362.14	one eye, moderate	369.74	congenital, unspecified	743.30
Angioid streaks, choroid	363.43	cortical blindness	377.75	infantile/juv. ant. subcaps	366.01
Aniridia, congenital	743.45	Blurred vision	368.8	infantile/juv. cort/zonular	366.03
Anisocoria	379.41	Brain abscess	324.0	infantile/juv. nuclear	366.04
Aniseikonia	367.32	Brain tumor, benign		infantile/juv. post. subcaps	366.02
Anisometropia	367.31	brain	225.0	Cavernous sinus thrombosis	437.6
Ankylosing spondylitis	720.0	cranial nerves (acoustic n.)	225.1	Cellulitis, eyelid	373.13
Anomaly, ant. chamber:		meninges (meningioma)	225.2	face	682.0
Axenfeld's, Peter's, Rieger's	743.44	Brain tumor, malignant		orbit	376.01
multiple AC anomalies	743.48	brainstem	191.7	Central serous retinopathy	362.41
Anomaly, of lacrimal gland	743.64	cerebellum	191.6	Cerebral, abscess	324.0
Anomaly, of lacrimal system	743.65	cerebrum, frontal lobe	191.1	cyst	348.0
Anomaly, of orbit	743.66	cerebrum, parietal lobe	191.3	edema	348.5
Anomaly, of sclera	743.47	cerebrum, occipital lobe	191.4	leukodystrophy	330.0
Anophthalmos, congenial	743.00	cerebrum, other	191.0	lipidoses	330.1
acquired absence of eye	V45.78	cerebrum, temporal lobe	191.2	Cerebral palsy	343.9
total blindness	369.61	Brown's syndrome	378.61	Cerebrovascular disease:	
traumatic avulsion of eye	871.3	Bullous keratopathy	371.23	aneurysm	437.3
Anoxic encephalopathy	348.1	Buphthalmos, congenital, NOS	743.20	transient ischemic attack	435.9
Aphakia	379.31	simple	743.21	vertebrobasilar insufficiency	435.3
Apraxia	784.69	w/ other eye anomalies	743.22	stroke, from occlusion	434.91
Arcus senilis, cornea	371.41	Burn, eyeball, acid	940.3	from embolism	434.11
Asthenopia (eye strain)	368.13	eyeball, alkaline	940.2	from thrombosis	434.01
Asteroid hyalosis	379.22	eyeball, other	940.4	from carotid stenosis	433.11
Astigmatism, regular	367.21	eyeball, with destruction	940.5	Chalazion	373.2

Chalcosis (not siderosis)	360.24	Conjunctival disorders:	Corneal disorders:
Chemical injury, acid	E864.1	pterygium (see Pterygium)	keratomalacia
alkaline	E864.2	scarring, localized	laceration (see Laceration)
solvents	E862.9	granulomatous	microcornea
Chorioretinitis/ choroiditis, focal	363.00	OCP	neovascularization
AMPPPE	363.15	symblepharon	deep
focal, juxtapapillary	363.01	w/ socket contraction	ghost vessels
focal, macular	363.06	vascular lesions	localized
focal, peripheral	363.04	Conjunctivitis, acute, NOS	pannus
focal, posterior pole	363.03	acute, adenovirus	opacities, congenital
disseminated, generalized	363.13	acute, atopic	pterygium (see Pterygium)
dissem., peripheral	363.12	acute, epidemic (EKC)	scar (see Scar)
dissem. posterior pole	363.11	acute, follicular	staphyloma
Harada's disease	363.22	acute, hemorrhagic	transplant
histoplasmosis	115.02	acute, mucopurulent	rejection
pars planitis, post. cyclitis	363.21	acute, membranous	postop complication
toxoplasmosis	130.2	chronic, NOS	ulcer (See Ulcer)
VKH syndrome	363.22	chronic, simple	Cranial nerve injury or trauma:
Choroidal degeneration, NOS	363.40	chronic, follicular	3 rd nerve
angioid streaks	363.43	chronic, vernal	4 th nerve
congenital	743.53	chronic, allergic	6 th nerve
senile atrophy	363.41	from Reiter's syndrome	7 th (facial nerve)
diffuse secondary atrophy	363.42	from rosacea	Cranial nerve palsy or disorder:
Choroidal detachment, NOS	363.70	from Stevens-Johnson	3 rd nerve, partial
hemorrhagic	363.72	inclusion	3 rd nerve, total
serous	363.71	pharyngoconjunctivitis	4 th nerve
Choroidal dystrophy, hereditary	363.50	Conjunctivochalasis	6 th nerve
peripapillary	363.51	Contact dermatitis, eyelid	external ophthalmoplegia
central areolar	363.53	Contact lens or glasses, fitting	7 th (facial nerve), Bell's
central: gyrate, serpiginous	363.54	Contusion (blunt trauma):	Craniofacial anomalies
choroideremia	363.55	eyeball	Crouzon's syndrome
Choroidal hemangioma	228.03	eyelid, periocular	Cryptophthalmos
Choroidal hemorrhage, NOS	363.61	face, cheek	Cyst, of conjunctiva
expulsive	363.62	orbit	iris
rupture	363.63	Corneal disorders:	eyelid
Choroidal neovascularization	362.16	abrasion	lacrimal duct or sac
wet macular degeneration	362.52	abscess	lacrimal gland
Choroidopathy, unspecified	363.8	anesthesia, hypesthesia	orbit
Coloboma, eyelid	743.62	arcus senilis	sebaceous, any site
fundus	743.52	band keratopathy	Cystic eyeball, congenital
iris, pupil	743.46	bullous keratopathy	Dacryoadenitis, acute
optic disc	377.23, 743.57	contact-lens related	chronic
Morning glory anomaly	743.57	deformity, NOS	Dacryocystitis, acute
Color blindness, deficiency	368.59	degeneration, NOS	chronic
achromatopsia	368.54	Salzmann's nodular	Dacryolith (lac. sac fb or stone)
acquired	368.55	Terrien's marginal	Dehiscence of wound
protanopia	368.51	deposits, pigmentations	Dermatitis, acute atopic
deutanopia	368.52	anterior (Stahl's)	contact, chemicals
tritanopia	368.53	argenteous (silver)	contact, medicines
Concussion w/ brief LOC	850.11	Kayser-Fleisher ring	contact, plants
Conjunctival disorders:		metabolic, other	contact, other
aneurysm	372.74	posterior (Krukenburg)	impetigo
concretions	372.54	stromal (blood staining)	infectious, of eyelid
cysts	372.75	descemetocoele	causing deformity
deposits	372.56	dystrophy (see Dystrophy)	parasitic
edema	372.73	ectasia	lupus
granuloma	372.61	edema (see Edema)	psoriasis
hemorrhage	372.72	erosion, recurrent	rosacea
hyperemia	372.71	foreign body, recent	seborrheic
lesion, benign	224.3	keratitis (see Keratitis)	Stevens-Johnson
malignant	190.3	keratoconjunctivitis sicca	urticaria
pigmentation	372.55	keratoconus, stable	other dermatoses, NOS
pinguecula	379.51	acute hydrops	Dermatochalasis

Dermatomyositis	710.3	lid, congenital	743.62	Exophthalmos:	
Descemetocoele	371.72	lid, mechanical	374.12	edema, congestion	376.33
Descemet's membrane, folds	371.32	uvea (pupillary margin)	364.54	Graves disease related	376.21
rupture	371.33	Eczema of eyelid	373.31	w/ motility disorder	376.22
Detachment, retinal, partial	361.00	Edema, cornea, NOS	371.20	hemorrhage, due to	376.32
partial, w/ single break	361.01	bullous keratopathy	371.23	intermittent	376.34
partial, w/ multiple breaks	361.02	contact lens-related	371.24	lateral displacement	376.36
partial, w/ giant tear	361.03	idiopathic	371.21	pulsating	376.35
partial, old	361.06	secondary	371.22	thyroid-related	376.21
serous (no breaks)	361.2	Edema, eye (swelling or mass)	379.92	(also use Graves disease)	242.00
total, recent	361.05	Edema, eyelid	374.82	Exotropia, (XT) NOS	378.10
total, old	361.07	Edema, orbit	376.33	monocular (sensory)	378.11
tractional	361.81	Edema, retina / macula	362.83	intermittent	378.23
other detachments	361.89	cystoid macular edema	362.53	A pattern	378.12
RPE detach., hemorrhagic	362.42	diabetic macular edema	362.07	V pattern	378.13
RPE detachment, serous	362.42	(use w/ a diabetic retinopathy code)		X or Y pattern	378.14
Deviated nasal septum	470	Ehlers-Danlos syndrome	756.83	alternating	378.15
Diabetes, <u>with</u> eye involvement:		Emphysema, trauma, lid/orbit	958.7	intermittent	378.24
type 1, controlled	250.51	Encephalitis, viral	323.01	A pattern	378.16
type 1, uncontrolled	250.53	Endophthalmitis, acute	360.01	V pattern	378.17
type 2, controlled	250.50	chronic	360.03	X or Y pattern	378.18
type 2, uncontrolled	250.52	panophthalmitis	360.02	diverence excess	378.85
secondary, controlled	249.50	panuveitis	360.12	convergence insufficiency	378.83
secondary, uncontrolled	249.51	parasitic	360.13	Duane's syndrome	378.71
Diabetes, <u>without</u> eye involvement:		phacoanaphylactic, other	360.19	exophoria	378.42
type 1, controlled	250.01	sympathetic ophthalmia	360.11	gaze palsy	378.81
type 1, uncontrolled	250.03	vitreous abscess	360.04	INO	378.86
type 2, controlled	250.00	Entropion, eyelid, involuntal	374.01	3 rd nerve palsy	378.52
type 2, uncontrolled	250.02	congenital	743.62	Exposure keratopathy	370.34
Diabetic retinopathy (see Retinopathy)		cicatricial	374.04	Exudates, retinal	362.82
Diplopia	368.2	mechanical	374.02	Eye exam, routine	V72.0
Discharge or redness, of eye	379.93	spastic	374.03	Eyelid disorders:	
Documentation: eg. disability	V68.0	trichiasis, with <u>no</u> entropion	374.05	abscess	373.13
Down's syndrome (trisomy 21)	758.0	Enucleation, w. ocular implant	V43.0	absence, congenital	743.62
Drusen, optic disc	377.21	Epiblepharon	743.62	absence of cilia, congen.	743.63
macula, retina	362.57	Epicanthal folds	743.62	allergic, contact dermatitis	373.32
hereditary retinal	362.77	Epiretinal membrane	362.56	blepharitis (see Blepharitis)	373.00
Dry eye syndrome	375.15	Episcleritis, NOS	379.00	blepharochalasis	374.34
keratoconjunctivitis sicca	370.33	intermittent, acute	379.01	blepharophimosis	374.46
Dyslexia, acquired (eg. stroke)	784.61	Erosion, corneal, recurrent	371.42	blink deficiency	374.45
developmental, congenital	315.02	Erythema multiforme, minor	695.11	cellulitis	373.13
Dystrophy, corneal, NOS	371.50	major	695.12	chalazion	373.2
corneal, crystalline & other	371.56	Stevens-Johnson syndrome	695.13	cyst	374.84
corneal, Fuchs	371.57	Esotropia, (ET) NOS	378.00	dermatochalasis	374.87
corneal, granular	371.53	monocular (sensory)	378.01	ectropion (see Ectropion)	374.11
corneal, lattice	371.54	intermittent	378.21	entropion (see Entropion)	374.01
corneal, macular	371.55	A pattern	378.02	eczema	373.31
corneal, polymorphous	371.58	V pattern	378.03	edema	374.82
corneal, other posterior	371.58	X or Y pattern	378.04	foreign body, retained	374.86
Dystrophy, retinal, NOS	362.70	alternating	378.05	hemangioma (skin)	228.01
albipunctate	362.74	intermittent	378.22	hemorrhage	374.81
fundus flavimaculatus	362.76	A pattern	378.06	hordeolum	373.11
Juvenile retinoschisis	362.73	V pattern	378.07	hypopigmentation, vitiligo	374.53
lipidoses, associated with	362.71	X or Y pattern	378.08	hyperpigmentation	374.52
progressive cone-rod	362.75	w/ accomodative disorder	378.35	hypotrichosis, madarosis	374.55
retinitis pigmentosa	362.74	monofixation syndrome	378.34	hypertrichosis	374.54
Stargardt's	362.75	convergence excess	378.84	jaw-winking (Marcus-Gunn)	374.43
systemic disorders, assoc.	362.72	divergence insufficiency	378.85	lagophthalmos, NOS	374.20
vitelliform	362.76	Duane's syndrome	378.71	paralytic	374.21
Ectasia, corneal	371.71	esophoria	378.41	mechanical	374.22
Ectropion,		6 th nerve palsy	378.54	cicatricial	374.23
lid, senile/involuntal	374.11	Exophthalmos, NOS	376.30	lesion / tumor, benign	216.1
lid, cicatricial	374.14	constant	376.31	lesion / tumor, malignant	173.1

melanoma: lid, canthus	172.1	Glaucoma		Hyperopia (far-sighted)	367.0
ptosis (see Ptosis)	374.33	ocular hypertension	365.04	Hypertelorism	756.0
retraction, lid lag	374.41	pigmentary	365.13	Hypertropia (HT)	378.31
vascular anomaly	374.85	pseudoexfoliation	365.52	Hyphema	364.41
Eyelid disorders:		papillary block	365.61	Hypotony, ocular, NOS	360.30
xanthelasma	374.51	Glaucoma, secondary to:		fistula causing hypotony	360.32
other lid disorder	374.89	Axenfeld or Rieger anomaly	365.41	flat anterior chamber	360.34
Fabry's disease	272.7	episcleral pressure increase	365.82	from other eye disorder	360.33
Facial nerve palsy	351.0	iris anomaly (aniridia, EIA)	365.42	primary	360.31
Facial spasm	351.8	lens disloc. or aphakia	365.59	Hypotropia (hT)	378.32
Facial weakness, droop	781.94	phacolytic	365.51	Injury (see Burn, Laceration)	
Family history, eye disorder	V19.1	steroid use	365.31	crush, face	925.1
blindness, vision loss	V19.0	systemic syndromes	365.44	face injury	959.09
congenital anomalies	V19.5	trauma	365.65	head injury	959.01
diabetes mellitus	V18.0	tumors or cysts	365.64	Iridocyclitis (see Iritis)	
cancer	V16.9	uveitis	365.62	Iris, uveal disorders:	
Fever	780.6	vascular disorders	365.63	aniridia, congenital	743.45
Fibrous dysplasia, monostotic	733.29	Glaucoma screening	V80.1	anomaly: Axenfeld's, Peter's,	
polyostotic	756.54	Graft vs. Host Disease, acute	279.51	Rieger's	743.44
Filaments, corneal	370.23	chronic	279.52	atrophy, degeneration	
Fistula, lacrimal	375.61	Graves disease + thyrotoxicosis	242.01	chamber angle degen.	364.56
Foreign body, recent, corneal	930.0	without thyrotoxicosis	242.00	ciliary body degen.	364.57
conjunctival	930.1	with exophthalmos	376.21	essential atrophy (EIA)	364.51
intraocular	871.5	and w/ motility disorder	376.22	generalized, sector	364.59
lid	930.8	Hallucinations, visual	368.16	iridoschisis	364.52
orbital wound with fb	870.4	Headache or facial pain, gen'l	784.0	margin, sphincter	364.54
other ocular surface	930.8	cluster, episodic	339.01	bombe	364.74
retained (old) magnetic fb	360.50	migraine, classic	346.00	coloboma, atresia	743.46
in anterior chamber	360.51	common	346.10	cysts	364.60
in iris or ciliary body	360.52	complicated, hemiplegic	346.80	miotic, papillary	364.55
in lens	360.53	ophthalmoplegic	346.80	ectropion uvea	364.54
in vitreous	360.54	retinal	346.20	floppy iris syndrome	364.81
in posterior wall	360.55	post-traumatic acute	339.21	iridodialysis	364.76
other or multiple sites	360.59	chronic	339.22	iritis (see Iritis)	
retained non-magnetic fb	360.60	tension	339.10, 307.81	lesion / tumor, benign	224.0
in anterior chamber	360.61	Hemangioma, skin	228.01	lesion, malignant	190.0
in iris or ciliary body	360.62	orbit or intracranial	228.02	other iris disorder	364.89
in lens	360.63	retina or choroid	228.03	pigment dispersion	364.53
in vitreous	360.64	Hematoma, postop / intraop	998.12	plateau iris syndrome	364.82
in posterior wall	360.65	Hemianopia, homonomous	368.46	pupillary membranes	364.74
other or multiple sites	360.69	bitemporal or binasal	368.47	rubeosis	364.42
Foreign body, eye / adnexa	E914	Hemifacial spasm	351.8	synechiae, adhesions NOS	364.70
Fracture, orbit or face, closed	802.8	Hemorrhage, conjunctival	372.72	anterior	364.72
orbit or face, open	802.9	eyelid	374.81	goniosynechiae (PAS)	364.73
floor, blowout, closed	802.6	orbital	376.32	posterior	364.71
floor, blowout, open	802.7	postop or intraoperative	998.11	Iritis, iridocyclitis, acute, NOS	364.00
malar or zygoma, closed	802.4	retinal, preretinal, subretinal	362.81	acute, primary	364.01
malar or zygoma, open	802.5	Herpes simplex, blepharitis	054.41	acute, recurrent	364.02
orbital roof	801.00	conjunctivitis	054.40	acute, secondary, infectious	364.03
Giant cell arteritis	446.5	keratitis, dendritic	054.42	acute, secondary, noninfect.	364.04
Glaucoma, NOS	365.9	interstitial, disciform	054.43	acute, hypopyon	364.05
anatomic narrow angle	365.02	uveitis	054.44	chronic, NOS	364.10
angle closure, acute	365.22	other ocular complications	054.49	chronic, from other disease	364.11
angle recession	364.77	Herpes zoster, blepharitis	053.20	Fuch's heterochromic	364.21
aphakic	365.59	conjunctivitis	053.21	glaucomatocyclitic	364.22
blind glaucomatous eye	360.42	keratitis	053.21	(Possner-Schlossman)	
chronic narrow angle	365.23	uveitis	053.22	lens-induced	364.23
congenital, w/ buphthalmos	743.21	other ocular complications	053.29	panuveitis	360.12
glaucoma suspect	365.01	postherpetic neuralgia	053.12	pars planitis	363.21
infantile or juvenile	365.14	postherpetic polyneuropathy	053.13	sympathetic ophthalmia	360.11
